

INSTRUCTIONS

Sconce 2 straight rotating arms

1. Unpack without using any cutter or scissor because of possible scratches. Release the packaging of reflectors without removing it completely.

2. Unscrew carefully the 4 screws to remove the back of the square housing.

3. Fix the square plate to the wall, respecting the verticality of the lamp.

4. Fix the arms into the central tube. Screw the hexagonal brass screw without tightening it otherwise painting could be damaged.

5. At this stage, at least 2 operators are necessary. One maintains the lamp, second operator connects electrical wires, then fit the square housing into the square plate on the wall. Then screw the 4 screws.

7. Remove completely the packaging.

8. Before moving the arms, the screw must not be tightened otherwise painting could be damaged.
