FLOWERPOT VP2

BY VERNER PANTON
1968

Not only was Verner Panton one of Denmark's most playful and provocative designers, whose work is still seen as futuristic to this day, he was also a huge advocate of colour as key for setting the right mood and triggering the imagination. Timeless truths that attest to the universal appeal of all his designs.

Like Panton, &tradition experimented with colours geared towards a new generation of design aficionados, with a spectrum of hues that are contemporary yet timeless. Enjoy the option of Grey Beige, Mustard, Dark Green and Deep Red, as well as Matt Light Grey, Matt Black or Matt White. Of course, the size of the VP2 is impressive in itself. A stunning addition to an office environment, retail setting, commercial venue, museum or cultural centre. At the same time, it makes a strong statement in a private setting, restaurant or hotel.

Originally designed in 1968, the Flowerpot series has become synonymous with the peace and love movement. We are proud to keep Panton's vision alive with a lamp that continues to embody the positive spirit of an entire era.
